WHOLESALE CATALOGUE

OF

Fruit, Evergreen & Ornamental

TREES,

Shrubs, Stocks, Roses, Greenhouse Plants, Etc.

For the Autumn of 1872 and Spring of 1873,

OFFERED FOR SALE BY

JOHN SAUL,

WASHINGTON, D. C.

In offering the present large stock of FRUIT, EVERGREEN and ORNAMENTAL TREES, SHRUBS, STOCKS, ROSES, GREENHOUSE PLANTS, etc., the undersigned would remind his patrons that all have been grown with care under his personal supervision, and the nomenclature of the Fruits, Roses, &c., may be relied upon.

Several new and valuable Fruits are this season offered for the first time.

The quality of all is remarkably fine, whilst the prices are very moderate.

At the prices quoted in this Catalogue, he reserves the right of selection in Fruits, &c., but the choice of the purchaser shall be adhered to as nearly as practicable. In no case will long lists of selected varieties be supplied at wholesale rates, but the usual discount allowed from retail prices.

Congress, at its last Session, having limited packages by mail to twelve ounces, and at a charge of two cents for every two ounces or fraction thereof,—only very small articles can now be sent by mail.

Parties ordering should particularly state the route or conveyance they wish the goods forwarded by; otherwise they will be forwarded by the best known route—but he wishes it to be understood that he assumes no responsibility after they are delivered to the forwarders.

Packing executed in the best manner, for which a charge is made sufficient to cover the expense.

☞At these prices, terms of payment must invariably be cash.

JOHN SAUL.

ROSES.

EVERBLOOMING.

To my collection of Roses, I would especially call the attention of Nurseryme and Florists who wish to form collections of the flower, or add the novelties to wha they may already possess, as I annually import all the new varieties of merit. My collection comprises all the fine novelties and the cream of previous years.

For description, see Descriptive Catalogue, which will be mailed to applicants.

For new Roses of 1872, see Descriptive Catalogue.

The foregoing list may be safely relied upon as containing the finest new Roses which appeared in 1870. The new Roses for 1872 will be found in Descriptive Catalogue. As these have been imported at considerable expense, we have to charge a price which may appear high, when compared with what older varieties are offered at. The stock is limited, and as we increase the same, we hope to offer them at low rates.

The following varieties are grown in large quantities for the trade. They are among the finest in cultivation.

Hybrid Perpetual, Tea, Bourbon, &c., from open ground, (not less than five of a sort,) . . . . . Price, $15 per 100

Tea Roses, grown in five inch pots, suitable forcing for winter bloom, Price, ... $25 per 100
